OTHER NEWS

Salem College Herbarium (SC) is joining NCU's database. Dr. Dane Kuppinger, Curator, and students will be entering specimens from North America's oldest herbarium!

Herbarium Associate Doug Goldman has named *Sabal X brazoriensis*, and has deposited an Isotype at NCU. We will distribute types to other institutions in the coming weeks – Holotype: BH; Isotypes: GH, K, NCU, NY and TEX. See PHYTOTAXA 27: 20. 2011 for description.
